

AI-Supported Digital Learning & Peace Education for Youth

Location: Jabal Marra, Central Darfur, Sudan

Background:

Conflict has disrupted education access in Jabal Marra. Only 40% of children are enrolled in primary school. AI-curated digital learning materials and interactive hubs can enhance literacy, numeracy, and peace education outcomes.

Objectives:

1. Provide 1,000 children with AI-enhanced digital learning access.
2. Train 50 teachers on digital teaching and AI-supported peace education.
3. Develop bilingual (Arabic/English) educational content for literacy, numeracy, and conflict resolution.

Key Activities:

Set up 5 digital learning hubs with tablets and solar power.

Distribute educational kits and AI-curated digital content.

Conduct teacher workshops on AI-assisted teaching methods.

Organize community awareness sessions on peacebuilding.

Expected Outcomes:

50% improvement in literacy and numeracy.

20% increase in school enrollment.

30% increase in peace awareness among children.

Potential Risks :

Limited technological infrastructure in rural areas.

Restricted access to remote communities.

Cultural resistance to digital learning methods.

Budget Estimate: \$60,000 – devices, training, content development, and hub setup.
